Cambridge (Mass.) Oct. 20. (P)—
An electrical machine with a "mechanical mind" that solves involved mathematical problems too complex of the human brain has been perfected at the Massachusetts Institute of Technology by Dr. Cannevar Bush, professor of electric power transmission and a staff of research workers. The institute, in announcing the development today, said the apparatus, known as a "product integraph," would open the way to hitherto inscensible fields of research. These are expected to its largely along electrical lines, as the work was begun several years ago in an effort to evolve a machine that would solve rapidly and accurately problems of

What Would You Do?

TF YOU KNEW of property that could readily be sold in lots, at five times what it cost in acreage—if you could get back \$12,500 for an outlay of \$2,500 in land, and cost of improvements-wouldn't you want to go ahead with its development?

There is plenty of such property.

Possibly you, as an individual, have not the capital to put the deal over.

But with others, combining their capital, you could easily handle it and make a handsome profit.

While we hesitate to make comparisons, it is well known that real estate syndicate profits in Los Angeles have been returning from 200% to 500% to investors.

Under the Dudley Plan of Benefical Interests this Company is engaged in just such activity.

The entire deal is escrowed with a strong local Trust Company, together with definite escrow instructions. The Bank receives and disburses all funds under these

Clyde took a shot at Dundee when he said he didn't think yoe was such a much of much and a kayoe over Micky Waiker doesn't mean anything. "Many a fighter has taken it on the chin when he wasn't right," said Clyde.

"He may kill himself trying to make 147," says Waxman, "but I don't think he can make it then. He's elegitimate middleweight."

Promoter Dick Donald refuses to enter the controversy at all. He points out that the forfeits are up and his contracts with Hudkins and Dundee are of the nonbreakable type, so he's satisfied.

10,000 cheaper-priced seats behind the goal posts and around the curves to select from. And the game is eight days away. For the fight that evening the entrepreneur, Mister Dickie Donald, rises up to remark that he is selling back of the twentieth row ringside, and if you think that is a punk place to sit remember what happened when you visited the box office a couple of days before the Hudkins-Baker fight and tried to get the same seats you spurned a week before.

Portly Max Waxman is the doing any worrying about the fight with Hudkins.

Max is round and happy and tie, and while he can make him train hard and earnestly, he can't make him worry. It's a lucky attribute, but you can't convince

Max.

Dundee installed a graphaphone at the Breakfast Club yesterday, and between sessions
with the bag and the rope he
danced the "Black Bottom."
That's proof of a contented mind.

As to the referee situation, Waxman is strong for George Blake, because he has been assured by press, public and promoter that George is one of the best referees in the country. Waxman doesn't know Blake, but the recommendation is enough for him, and he believes that the selection of the popular L. A. A. C. sportsman and former manager of the retired flyweight king. Fidel La Barba, would be assurance to the public and the principals, that the fight will be as square as square can be.

"All I want is an even break." said Waxman. "It took Joe a long time to rake in the welterweight title, and he's risking it five months after winning it. Show me a champion who has done likewise. I won't say what we will do if another referee is named. We'll cross that bridge when we come to it, but I would like to see Blake named."

Perry Ferguson of Girard shot through twenty holes to win the decision from W. L. Jelliffe, a clubmate, in the second most thrilling match of the day, Al Gruber, the young man who works in the Royal Palms golf ahop, plays bona-fide amateur golf and defeated Perguson for invitational honors at Pales Verdes several weeks ago, also traveled overtime to defeat W. S. Moore on the twentieth.

If was hot at El Caballero again yesterday, but not warm enough to prevent six of the fitten players who defaulted from calling up in time to prevent any inconvenience. Nine other players who signed to play through, according to A. B. Painter, failed to notify the efficient starter when they changed their minds and as a result, nine disgruntled opponents had the long drive out to the club for nothing. The names of those guilty of such an unforgivable golf offense will be duly noted, according to association officials, and they may need more than an invitation to play in the next interclub event.

Players defeated yesterday and monqualifiers, will be eligible to play in the next interclub event.

a post - season unpicasantness sometime in Becember.

Bill Cole, the portly gentleman who has done quite well with a meager bit of material in his first coaching term at Tustin, is not so foolish as to predict that his farmers will do much toward heading off the "big fed team's" mad dash to another county loop crown, but underneath his broad frame he undoubtedly harbors a fond hope that Fullerton will find it advisable to keep its first string in there most of the day.

Fullerton all but committed mayhem on the person of the little Bra-Olinda delegation last week and figures to win almost as handily from Tustin. The Hedlegs are said to have the best team that they ever have boasted this year and Santa Ana will tell the world that that is taking in considerable territory.

waiting on the sidelines to subscribe
its bit to the Golden Bears' progress.
Critics have gained the idea that
"Nibe" intends to save his line, in
particular, toward stopping Morley
Drury and his thundering Trojans on
the 29th inst. If the second string
line will turn the trick Saturday one
strategy is not half bad. Although
the betting commissioners, those
sugacious minds who see footballs

an odds on favorite, the fear is wideappread over the campus that the
Olympic Club is not going to miss
by far its startling performance of
1925, when it won 13-0 and ended
California's five-year period of uninterrupted victories. While the
Olympic Club is primed toward the
Bear game contest, the Californiars
cannot afford to point to the transbay crowd. And the proper mental
attitude is definitely established as
an important factor in grid doings
of the day.

The 20,000 or more fans expected have boxing observers found more need of a national governing authority, exercising sweeping instead of limited powers, than they do at present, with the various ruling to the same ring to settle the argument. bodies in sharper conflict than ever. The conclusion of the National bay crowd. And the proper mental attitude is definitely established as an important factor in grid doings of the day.

The 20,000 or more fans expected to witness the contest will see stars of all-American caliber in best-college action. A few of the mationally complimented backfield heroes on the Olympic line-up are Mort Kaer, the talented halfback from U.S.C. and last year proclaimed as all-American: George Bogue, Stanford's savior on more than one occasion: "Cowboy" Kutsch of Iowa and others of note. No, the Bear's knees are not shaking nor his teeth rattling. But he intends to keep his eye on the Olympians like "Rags," the Airedale, watches for the public appearance of the gopher.

The Conclusion of the National Boxing Association's convention in Toledo has emphasized this conflict, which principally is between the National Boxing Association's convention. The NBA, with the boxing authorities of twenty-four States banded together, has the weight of numbers and widespread representation behind it, but the New York solons have the advantage of controlling the situation in the country's biggest and richest boxing center.

WE are one of the largest and oldest automobile dealers in Southern California. Everybody in America knows the car we sell. It is mediumpriced and popular.

Our sales department is already large and well-organized, but we need more salesmen, and can offer them a real opportunity.

The men we are looking for must have had some selling experience -not necessarily automobiles. They must possess an open-minded willingness to be trained in our methods of selling and follow the instruction they are given.

These men must further be willing to work hard. Remuneration is entirely by commission and is liberal. Salesmen now in our employ are earning annual incomes of \$3000 to \$17,000, depending upon ability and how hard they work!

Applicants for these positions must have lived in Los Angeles long enough to know the city, and to be favorably known.

Answer by letter to D. A.V. Box 430, Times Branch Office, stating your age, your business and selling experience, present employment, and the length of time you have lived in Los Angeles.

coard mastes upon the ten-year clause.

Opposed to them was a telegram from the Shipowners' Association of the Pacific Coast strongly urging that none of the lines be sold without at least a guarantee of ten years' continuous service. Supporting this were petitions from all of the principal shippers in San Francisco and Los Angeles using the American-Australia-Orient Line out of San Francisco indorsing the Teller, contention for tenyear guarantees. James Tyson, head of the Charles Nelson Company of San Francisco, also filed a strong letter of protest against anything less than ten years.

MAY FIND OTHER USES
Tyson pointed out that ships sold at a restricted service, such as the In a restricted service, such as the five-year guarantee provides, have been disposed of in the past by the Shipping Board for about \$50,000 oach for freight steamships of \$800 tons in size. The same type of vessels have been sold for service without restrictions at prices three and four times as great and are still pringing that price. Tyson pointed out that if the three west-coast lines are sold with only a five-year guarantee they may be put to other uses are sold with only a five-year guarantee they may be put to other uses after the guarantee period is passed and will then compete with vessels of the same type that cost other Pacific Coast owners several times as much. The Shipowners Association of the Pacific Coast takes a similar view. Its telegram said: "Our members have purchased many vessels from the board for coastwise and intercoastal service at very much higher prices than paid for vessels sold for foreign service and competition from vessels operating in foreign trade for five years and then placed in constwise and intercoastal service, would be disastrous to the two latter trades. We believe that in view of the money significance in foreign trade for five years and then placed in constwise and intercoastal service, would be disastrous to the two latter trades. We believe that in view of the money significant only in foreign trade and of the point of the money significant only in foreign trade and of the placed in constwince and intercoastal service, would be disastrous to the two latter trades.

this proposed sale unless vessels are restricted for service in present routes for at elast ten years and we believe the Shipping Board should guarantee to all American shippers, exporters and importers that the lines as now operated will be continued for at least ten years so that their efforts and expenditures in building up foreign trade shall not be fruitless." Several of the San Francisco shippers who filed protests against the sale of these vessels with a short-term guarantee made the point that when the vessels were sold they should be disposed of to disinterested shipping men affiliated with any other industry. This was based on the report that a large lumber combination with headquarters at Portoland and with some San Francisco of the lines with their forty vessels. The fear was expressed that independent lumber exporters and the shippers of other types of cargo would not receive disinterested service.

An earnest endeavor is being made by the industry itself to curb the wastage of natural gas, and a special monoservation committee recently appointed by the American Petroleum of conservation committee recently appointed by the American Petroleum of Coli Company of California, is president, is now in session at Ponca City, Okla.

The arecent statement, Mr. Clark said, 'gas must be conserved and made production of oil again and again. Our industry now has the opportune on inty to proceed voluntarily and in an orderly manner in this work. Let it embrace and not refuse or even postpone action until we are forced to act through the invocation of the police power of the oil-producing States. This to my mind, would be a calamity."

UNION MOVES

The Union Oil Company announced yesterday that it is endeavoring to conserve natural gas by preventing, as far as possible, its escape into the gas as a could be put to further use, other companies are also co-operating the contracts of the conserve as a so college as a college of the gas lift, and by the use of the gas lift, and by th

The Investor SELECTS! He Does Not Merely Buy

UYING investments is not merely buying. The purchase of a bond is different from the purchase of food or clothing or luxuries. The money one invests is not money spent. It is money put to work for the future - to build a competence - to safeguard old age - to leave something for one's dependents. It is the most valuable money one has.

Therefore, the prudent investor selects - he does not merely but His selection is two-fold -

> FIRST, THE HOUSE—He chooses an investment dealer of integrity, responsibility, experience, and specialized technical knowledge in his field. His dealer must have ample financial resources, a highly trained, expert organization, and ability and willingness to give thoroughgoing service.

> SECOND, THE INVESTMENT—He selects from his dealer's offerings the securities best suited to his own needs, but alw with an eye to the safety of his invested capital, first and foremost. He asks for a good interest yield, but always reme that the bond is more important than the coupon.

S. W. STRAUS & CO. are at the service of that great and increase number of bond buyers who select securities with discrimi who investigate and analyze before they invest. We will be pl to submit for your scrutiny a variety of sound bonds which recommend, yielding as high as 51/2-6%, in \$1,000, \$500 \$100 amounts. Call or write for

Great Lakes Terminal Warehouse Company of Toledo

First (Closed) Mortgage 61/2% Sinking Fund Gold Bonds

September 1, 1927

INTEREST PAYABLE WITHOUT DEDUCTION FOR MORMAL PEDERAL INCOME TAX NOT TO EXCEED 25

IN THE OPINION OF COUNSEL THESE BONDS WILL BE LEGAL FOR SAVINGS BANKS IN THE STATE OF MICHIGAN UPON COMPLETION OF THE BUILDING.

These Bonds are listed on the Chicago Stock Exchange

The following information is furnished by Mr. John T. Spencer, Vice-President and General Manager, in

PROPERTY: The Great Lakes Terminal Ware-house Company of Toledo will erect a modern seven-story and basement reinforced concrete dry and cold storage warehouse at Morris and William Streets, Toledo, Ohio. This site is exceedingly desirable, being ample in size (approximately 86,500 square feet) and located in the heart of the transportation and wholesale district. It is in close proximity to the freight house of the most important railroads entering houses of the most important railroads entering Toledo and has available direct railroad connections, with private sidings, from the New York Central Lines and from the Baltimore and Ohio

BUSINESS: Toledo presents an unusually attractive field for warehouse operation, from the standpoints both of competition and the characteristics of the available business. A survey just teristics of the available business. A survey just completed by independent engineers reveals the fact that no modern public cold storage facilities are now available in the city and that general storage is limited for the most part to small units without track facilities. Thus the need for additional storage facilities is plainly indicated. In addition to the favorable local situation, Toledo presents distinct national advantages as a storage-in-transit point. It is a strategic railroad center, the third largest in the country, and the new terminal should obtain unusually large revenues from the important volume of storage-in-transit tonnage available. SECURITY: These bonds will be a direct obligation of the Company and will be specifically secured by a direct closed first mortgage on the land described above and on the plant to be erected thereon. Based on estimates made by Day & Zimmermann, Inc., Engineers, the building and equipment, exclusive of the land, will upon completion have a value of \$4,277,000. The Fidelity Trust Company, Detroit, has appraised the land and equipped building at \$4,500,000.

The First Mortgage Gold Bonds will be followed by \$850,000 principal amount of General Mortgage 7% Convertible Gold Debentures, 36,375 shares of Class A Stock and 80,000 shares of Class B Stock. The completion of the building free and clear of all liens, except these bond issues, will be guaranteed by the Standard Accident Insurance Company, Detroit.

EARNINGS: Based upon the full utilization

EARNINGS: Based upon the full utilization of the facilities to be provided under practical operating conditions and prevailing rates, Day & Zimmermann, Inc., Engineers, estimate that the annual earnings should be as follows:

The estimated net earnings, as shown above, are more than three times such maximum annual interest

These bonds are offered for delivery when, as and if issued and accepted by us and subject to the approval of our counsel. It is expected that Interim Receipts of the Trustee will be available for delivery on or about November 1, 1927.

SUNLAND SITE OFFERED

A site near Sunland presenting an interesting possibility of a combined land and seaplane field among the mountains, was advocated. It was suggested that a dam in the Big Tujunga Wash adjoining this field would provide adequate water for esaplanes. Those requesting the petition said there also is a move to annex this territory to Beverly Hills. If the petition is sufficiently signed an election will be held.

A site near Sunland presenting an interesting possibility of a combine of a combined and and seaplane feld among the mountains, was advocated. It was suggested that dam in the Big Tujunga Wash adjoining this field would provide adequate water for seaplanes. Water came in for discussion in another way in connection with the El Monte site. Harry A. Schenek, speaking for this site, said the water rights on this property were worth not less than \$2,000.000, which is approximately the cost of the field.

A runway of 7800 feet and two others of approximately 7400 feet are available on the Hellman property on the East Side and this site, according to Frank Belcher, who represented the owners, h capable of being leving to the cost of the field.

What price glory?
The answer is, \$293,460.
This is the amount the Board of Public Works yesterday asked the City Council to appropriate for decorating rooms in the new City Hall, including carpets and special clocks.

Among the items listed as necessary to furnish completely the new City Hall was a refrigerator.
The appropriation was asked for in addition to the \$5,000,000 the City Hall will cost. The \$5,000, 000 will pay for the marble pillars and hallways in the new City Hall, but the board took the position that amidst all the splender of the new buildings, including the marble pillars, the public rooms should be handsomely dec-

orated.

The Council also has a special committee at work listing the new furnishings and desks the Councilmen want in their private offices and those of their secretaries, and this committee will soon present its addends to the bill of the Board of Public Works.

The board's estimate for decorations and furnishings was as follows:

It all goes back to the time when Mr. Rogers had the difficulty with Beverly Hills as to where its May-or should spend his time. When Will anally shook the dust of the Beverly Hills City Hall from

the Beverly Hills City Hall from his feet he was offered a like position by Yucaipa.

Will countered that he could not find Yucaipa, so the little city made a map, with the aid of many apples, which clearly showed the road to Yucaipa, which was designated upon the map by a box of curn pone. But now comes the latest evasion, sens by wire to the Yucaipa chamber and forwarded to A. G.

Inquiry Made Into Poisoning

A thorough investigation is being made by Detective Lieutenants Stevens and Miller of the police homicide detail into the asserted attempted suicide yesterday of Miss Annabelle Morley, 32 years of age, said to be employed as a housekeeper at 1012 Ryperion avenue, Hollywood.

Dr. G. M. Burrell, 5300 Hollywood Boulevard, was called to the house and found the girl paralysed from her hips down. He reported the matter to the police who found that Miss Morley had taken poison in an attempt at suicide after her employer, Jack Zable, had reprimanded her, according to the officers. She was taken to the Hill-street Receiving Hospital and given emergency treatment, afterwards being removed to the Pacific Hospital. Her condition is reported as serious.

Missourians will have their fall picnic in Sycamore Grove the 29th inst. President Selecman will offer all the usual attractions. The program will come after the basket-dinner hour and will be brief. There will be old-time and patriotic songs and real Missouri oratory.

RECEDES TO ONLY RIPPLE

From 1:30 a.m. to Late at Night Underworld Fails to Disturb Police

Los Angeles' crime wave yesterday receded to a mere ripple, police rec-ords showing that not an arrest was made between 1:30 a.m. and a late made between 1:30 am. and a late hour last night, nor had the underworld contributed a robbery, burglary or hold-up. The day was unique in the records of several weeks.

While quiet reigned throughout the city, Chief of Detectives Cline announced that 120 additional men have been assigned to the detail scouring the city for suspicious persons in an attempt to wipe out the crime situation. The new detail gives the police a total of 216 officers and men in this work.

In the short time aince the crime crusher detail was organized on order of Chief of Police Davis, a great decrease in the number of crimes has been shown on police records, according to Cline. This decrease has been accompanied by the departure from the city of many criminals who recently came to Los Angeles, in the opinion of the detective chief.

Although police authorities feel the situation is well in hand and the saudeen burst of banditry quelled, the same constant patrol of the city will be continued, it was said.

Agnes Morgan never spoke a word to him, although she had all his meals ready for him on time.

This strange tale Morgan told in Judge Bowron's court yesterday when he appeared to prosecute his suit for a divorce. He charged desertion, but the circumstances on which he based his charge were so unusual that Judge Bowron took the case under advisement. The judge was not so sure that under the California law a wife is required to speak to her husband.

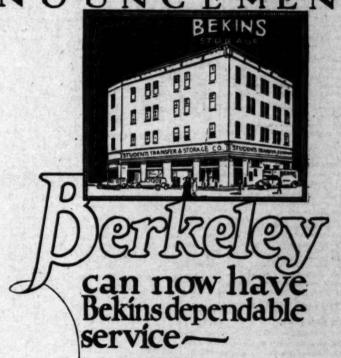

"We married in 1895 and our life tegether was ordinary until 1907," Morgan related. "On the first day of December that year, without notice or comment, Mrs. Morgan moved all

the Imperial Valley flood menace is not a menace to human life, but only to property. Granted that the advancing waters probably would move so slowly that those in their path would be able to escape, there still remains danger to human life in any enforced wholesale migration. Then, too, there is more to human life than merely hearting breath in the heady. there is more to human life than merely keeping breath in the body. Change the singular to plural, let the phrase include home-making and the round of duties that are man's lot during the three-score and ten years that are assigned to him, and can the commission truthfully say that "human lives" would not be menaced by having the

wiped out? The distinction the commission seeks to make is more technical than real. The homes in the Imperial Valley are something more than property, and their destruction would entail suffering and misery far beyond the money loss. This the commission fails to take into consideration.

commission fails to take into consideration.

The commission's pronunciamento on the subject of need for a water supply for Southern California valleys and towns will not receive a complete okeh, either, in this section of the country. The commission declares there is sufficient water in Mono and Owens valleys to supply 8,000,000 people. This assertion has been heard before, and the one man who knows more about water supply here than anybody else. William Mulholland, says it is not true. He says the Owens supply is already developed to its practical limit. It is perhaps a point on which there may be a legitimate difference of opinion, but the Utah commission recognizes none. Mulholland says a population of no more than 2,000,000 can be supplied from the territory now drained by the Los Angeles Aqueduct, and that Colorado water is a necessity. To be fair, the Utah commission should have qualified this portion of its report by including Mulholland's dissenting views, since Mulholland is the outstanding authority on the subject.

WOMAN IN POLITICS

The direct results of the enfranchleement of women in its brief trial may be enumerated as follows:

The vote has been used in all the States to secure the removal of discriminations against women under the law, to prevent the passing of other proposed discriminations and to improve the legislation which concerns women and children.

Women vote in numbers surprisingly approaching that of men voters. Examination indicates if is not true that women, more than men, are neglecting their political opportunities of expressing their political opportunities of expressing their opinions at the polls. The testimony is general that the presence of women at the polls in the capacity of voters and election officials has quite altered the character of election day, making it a peaceful and dignified function.

The service of women in high positions to which they have been appointed by the Federal, State and local governments, or elected as members of legislatures, national, State, county and local officials, has been astisfactorily intelligent and in accord with the public good.—[Caritic Chapman Catt, in Current History.

Blave Destroys Garages and

Pire ocused by spontaneous combustion in a government bonds warehouse in the Union Termina Warehouse Company building at 8st enth and Terminal streets yesterisd destroyed more than 5000 sacks of sugar and other commodities with total damage estimated at approximately \$30,000. Goods valued a more than \$500,000 were saved by prompt action of the city fire department and a sprinkier system. The blase originated in a pile of sacked sugar belonging to the Ouban American Bugar Company and held it bond by the government on call, secording to W. E. Teagus, generamanger of the Los Angeles Unio Terminal Company, from which the warehouse is leased. Seventy thou and sacks of sugar, besides a larguantity of other government bonds wares, were threatened.

It was learned that the majority of the damage was caused by water, although several hundred seeks of sugar were damaged by fire and smoke. The blaze was under control within twenty minutes, according to A. C. Bing, vice-president of the warehouse company, and was connaed to the one section of the fire-

Every effect is a cause; and every cause is likewise an effect. Diseased tonsils may cause a variety of symptoms and disorders in the body, but the "sick" tonsils are, themselves, an effect of causes which can be easily ascertained.

In bringing about a cure of diseased tonsils after they have already become enlarged or pussy, one's food an supply must be cut down to the minimum, using only fresh frui's, deafy vegetables, and a small amount of meat and eggs for protein. Increased physical culture exercises will assist the body in increasing the circulation and hurrying along the processes of a cure. Local treatments are seldom necessary, especially with children, but the ultriaviolety ray treatment will help in reducing the size of the adult tonsils.

Those who are subject to repeated attacks of tonsilits or sore throat should persist in their dieting until the tonsils reduce to the normal size. With children this seldom takes more than a few weeks, but with the adult several months may be necessary before a complete cure is effected.

NANCY PAGE

Do You Care for Your Feet as Mrs. Nancy Page Does Hers?

Nancy's visit to the chiropodist furnished her with much food for thought. He spoke of the American women's misuse of their feet. He said they did not wear the right shoes, did not rest their feet, did not begin to give them the care they lavished on their hands, although their feet were called on for ten times as much service as hands.

He advised daily bathing in water softened with a little baking sods. The skin between toes should be carefully wiped after bathing. The nails should be kept cut with a slight curve toward the middle. A dusting powder relieves tired feet. So do lounging slippers. He advised resting the feet on a footstool, especially after a tiring shopping trip, or a day's work.

Then Nancy talked with the saleslady at the hosiery counter. She advised daily washing of silk stockings. Luke warm water, mild soap suds and squeezing and patting, never wringing ruthlessly, were advised. If the stockings were not washed daily they should be kept in a separate laundry bag and not thrown in with the general wash. Nancy patted herself on the back for this was her regular procedure.

Youth Held for Deaths in Auto

Charged with responsibility in the death of two passengers in his automobile, Manuel Carroll, 22 years of age, was yesterday held to answer to the Superior Court for trial on two counts of manslaughter by Municipal Judge Westover.

Henrietta Fuentes and Lupe Leon, both 17, were almost instantly killed on the 8th inst. at Anderson and Seventh streets when the automobile rented by Carroll skidded while rounding a corner and overturned twice. James Chico, also an occupant, was slightly injured.

to be known as Edna May or whether some people may mistake her for Edna Mae remains a question today. Edna May, whose full name is Edna May Adams, says she may. But Edna Mae, whose full name is Edna Mae Cooper, says she mayn't.

Edna Mae Cooper, who is a film actress with Mack Sennett, objects to the assumption of the film name of Edna May by Edna May Adams, who has just signed a contract with the Johnny Hines company, on the grounds of priority rights.

Edna Mae Cooper says that she has many friends who know her only as Edna Mae, and she is afraid that they will get her mixed up with Edna

QUOTA FOR RED CROSS

Los Angeles Area Raised \$398,394.60 for Flood Relief, Says MacWatters

Los Angeles went over the top 100 per cent in the recent drive of the American Red Cross Mississippi Valley Relief Fund, according to a state-ment made yesterday by D. C. Mac-Watters, chairman of the executive committee, Los Angeles chapter. The total collected by the Red Cross for relief and rehabilitation work in the flooded area was \$16,952,449.72, while the Los Angeles district supplied \$398,394.60 of that amount. It is anticipated by Mr. MacWatters that belated contributions will bring the Los Angeles figure up to \$400,000. For the fiscal year ending June 30, last, the American Red Cross provided relief and rehabilitation in ninety-one disasters in the United States and twenty disasters in the insular poscessions and foreign lands, expending a total from the treasury of \$7,803,000, and in addition, disbursed the large contributions made by the public in response to Presidential proclamation in the major disasters in Florida and the Mississippi Valley.

OPENING OF ROOSEVELT HOTEL SET

Formal Ceremonies Next Friday and Saturday at New Hollywood Hostelry

Formal opening of the new \$2,500,

or Hollywood Boulevard and Orange Drive, the Roosevelt Hotel is a height-limit structure of Spanish design and architecture throughout. Its 400 rooms, several on each floor, of the apartment type with kitchenettes, can be divided into suites of almost any size. On the roof of the building is a complete bungalow-apartment with kitchen and studio apartment. Modern conveniences in each room include mechanical refrigeration from a central plant, circulating ice water, etc.

Interested in the Hollywood Roosevelt Properties Corporation are many of the celebrities of the screen, producers, directors and persons prominent in the theatrical world. As a result, it is expected that the hotel will be a rendezvous for professional folk. A large and luxuriantly furnished louinge has been set aside for their gatherings, to be known as the Screen Room.

In addition to the hotel offices, there are on the main floor a large dining-room and a special supperform. A pipe organ has been installed in the supper room, which will be used for nightly dancing. An orchestra has been engaged for the season.

The grill is in the basement and

Four Mentioned for Fifth Area Commissioner

BY DR. RALPH L. POWER The career of Sam Pickard, secretary of the Federal Radio Commission, who recently was appointed as Commissioner for the fourth zone, snows an interesting side light on the wide range of knowledge necessary in certain radio fields.

Pickard was born on a Wyoming ranch, near Cheyenne, and was educated in Iowa and Kansas. A few weeks prior to his graduation from the University of Kansas school of journalism he enlisted in the air augres.

Mis war record was a colorful one and he returned to this country after wounds received in aerial combat during the last days of war. Afterwards he returned to the State College of Kansas at Manhattan and received a degree in agriculture.

While there Mr. Pickard established the first college of the air at Kansas State Agriculture College in 1922. The pioneer work in this activity won for him the position as chief of the radio division of the United States Department of Agriculture.

ALL FAIL TO PASS TEST

Through a tie-up of several hundred stations he served the farmers daily with timely market news and general agricultural information for a year and a half.

It is interesting to note that the recent Civil Service Commission examination to fill the agricultural radio post, which Pickard vecated last March, found no qualified applicable. A new test will be announced shortly. The requisites include graduation from a recognized agricultural college, one year experience in a large radio studio, and three years in agricultural *eaching, journalism or farm management. This narrows down the list of available candidates to a minimum.

Mr. Pickard in taking dear the lists of available candidates to a minimum.

Belows, former WCCO executive, who resigned as follows:

REASON FOR QUITTING

"My sole reason for taking this step is that as I have been holding an interim appointment. It has been necessary for me to finance myself and family during the entire period singe March 15, 1927, and I do not feel that I can further increase this economic burden.

"It is a great source of satisfaction that I have been able to share in the work of the Federal Radio Commission from its inception until now, when its policies are clearly defined and its authority is definitely established. On all matters which have come before it, the members of the commission have worked together with extraordinary harmony, and in leafing this position I want to express my deep personal appreciation of the absolutely unfalling spirit of cooperation shown by all my colleagues which has made it possible for the commission to perform its exceedingly trying work of the past seven months without a single disagreement on any matter of importance."

CHILDREN'S HOUR

The children's hour with Uncle John at The Times' radio studio last hight featured juvenile musicians. There was Victor Gottlieb, talented Il-year-old 'cellist, accompanied by Florence Rubin with numbers by Technikowsky and Gabriel-Marie, and Dorothy Cushman and Raymond Burron, in cornet duets, accompanied by Ilene Beler with semiclassic selections of merit.

The speaking part of the juvenile array of talent included Constance J. McCoy, "Sweet Marie," with a school day reading: Rosetta Lewin, "Curly Locks," featuring a Guest poem; and Clyvus Holland, Shakespearean juves KWN—Breakfast Club. KFVD—Talks.

The Albanian Army, Once the Nondescript Organization of the Balkans, has blossomed out in spectacular new uniforms purchased in Italy, and now has all the appearance of a swank outfit. The Balkan penchant for ornate military toggery was indulged to the extreme. Photos shows Ahmed Zogu, President of Albania, inspecting his "new" army. (Herbert photo.)

ARLY IN THE MORNING OF SEPT. 23, 1868.
CAPT. CARPENTER WITH HIS NINETY MEN AND SUPPLY TRAIN MARCHED WESTWARD FROM CHEYENNE WELLS ALONG THE DENVER TRAIL. TEN MILES HAD BEEN COVERED. AND THE COLUMN WAS CROSSING A RIDGE, WHEN CARPENTER, LOOKING BACK, SAW A RIDER COMING IN PURSUIT AT A DEAD RUN.

T WAS THE COURIER FROM FORT WALLACE BEARING ORDERS FOR CARPENTER TO DASH TO THE RESCUE OF "SANDY" FORSYTH, WHO WAS BESIEGED BY THE CHEYENNE ON THE ARICKAREE. MOST OF CARPENTER'S COLORED TROOPERS WERE RECRUITS. BUT THEY CREETED WITH HEARTY CHEERS THE READING OF THE ORDERS SENDING THEM INTO DANCER.

AKING HIS WAGON TRAIN WITH HIM, CARPENTER BEGAN A FORCED MARCH TO THE
NORTH. THE FIRST DAY THE COLUMN TRAYELED FORTY-FIVE MILES; FORTY MORE ON THE
SECOND! THE NERVE-RACKING PACE WAS

Kennsdy, formerly of Angelus Temple, was arrested late last night at 1127
Lemoyne avenue on a warrant issued last July in which she was charged with speeding forty-eight miles an hour in a twenty-mile zone.

The young woman was taken into custody by Detoctive Lieutenants Bailey and Dickenson. They reported that police had been in search of her for several months but each time they were folled.

Last night, they stated, they were informed that she was at the Lemoyne-avenue address and promptly proceeded to the house. There, friends of Miss Burbeck attempted to hold them off, they said. They were finally forced to walk helter skelter into the house only to be confronted by Miss Burbeck in night attire. She defied them to place her under arrest, they stated, and they were equally prompt to take up the defi.

As a result, she was led to the City Jall, where she deposited \$40 bail to insure her appearance this morning in Municipal Judge Valentine's court to answer the speeding charge.
